DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to a fixing device, classified in class 219, subclass 619.
- II. Claims 7-13, drawn to a fixing apparatus, classified in class 219, subclass 216.
- III. Claims 14-18, drawn to a method of heatfusing, classified in class 219, subclass 600.

The inventions are distinct, each from the other because of the following reasons:

Inventions Both Groups I and II and Group III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product can be with a materially different product such as one with an inductive heater or without.
